Sir J. A. McFarland

A very important and ~~very~~ influential petition was presented to the Council, and by their Council referred to the former Railway Committee in regard to the removal of the Grand Depot Station in the City, and the Com. after mature deliberation agreed that the question should at once be laid before you. So that you might in the interests of the City communicate with the Manager putting the question before him in as strong a light as you are capable of doing - and that after you have as it were opened the question the Council would then lay the several business points before said ~~Manager~~ Manager.
